

## Ubisoft Future Women in Games

The Ubisoft Future Women in Games mentorship aims to attract and develop diverse talent for our studios around the world. With more people playing games than ever before, we have an exciting opportunity to create inclusive entertainment that is truly reflective of our diverse world.

The industry continues to benefit from different backgrounds, fresh perspectives, and new ideas. Ubisoft Future Women in Games mentorship supports this evolution by highlighting emerging talent – when they thrive, so does the industry.

Successful applicants receive mentorship from our experts across programming and game design, and hands-on game development experience.

Come build the future of entertainment today with Ubisoft!

### Programming: The Challenge

Imagine and code a game based on a specific theme using a provided API. A complete brief and API will be provided at the beginning of the challenge on October 25<sup>th</sup> 2019.

A panel of Ubisoft judges will rank all submissions based on the following criteria:

- The quality of your code structure and the relevance of techniques applied in regard of the chosen design.
- This is a technical challenge so artistic merit will be ignored in the judging.

You will need [Microsoft Visual Studio 2019](#) in order to complete this challenge. Your entry must be entirely in C++, and successfully compile and run on a Windows 10 PC.

### Eligibility

The challenge is open to applicants who:

- Currently attend OR have graduated from an Ontario post-secondary school no earlier than Spring 2018
- Are Ontario students or recent graduates with less than 2 years professional experience in game development
- Identify as women
- Must be eligible to work in Canada

- Reside in Ontario
- This challenge must be completed individually. Team-based submissions will not be reviewed.

## **Application Requirements and Documents**

*All items are mandatory.*

Your application must contain the following three (3) parts:

1. Up-to-date Resume
2. The link to a YouTube video of a play-through of your game in HD at a resolution of 1080p, highlighting the gameplay and technical features. This video should be approximately 5 minutes in length.
3. Your complete code and documentation saved in a .zip file:

Your application package must be named as follows:

UFWiG\_Toronto\_2019\_Programming\_[FirstName\_LastName].zip

- Please do not enter your name anywhere inside of your code or documentation, only in the Zip file name and your resume.
- Documentation must be in PDF or PowerPoint format

## **Finalists**

Select candidates will be invited to the studio for a mentorship interview and will be provided feedback on their submission. Ubisoft Toronto will designate up to five finalists, dependent on the recommendations of the Ubisoft Toronto judging panel.

Ubisoft Toronto is the sole judge of this contest and reserves the right to elect the panel as it sees fit; the judges' decision is final and non-negotiable.

## **Winners**

Winners will be selected based on their submission, and will be offered a paid apprenticeship at Ubisoft Toronto in Spring or Summer 2020, gaining hands-on experience in a game development team, and continuing mentorship from experts in their field.

Winners will be announced early December 2019.

## **Prizing**

1st Prize:

One (1) paid apprentice position at Ubisoft Toronto. The Apprentice position shall be for a length of three (3) months at Ubisoft Toronto studio, during Spring or Summer 2020. Dates subject to change at the sole discretion of Ubisoft.
